Product Description

Finding the correct ergonomic monitor adjustment is easy, even for desks with a shallow depth, with the SmartFit® Space-Saving Dual Monitor Arm. Easy, non-permanent installation includes necessary tools. A pre-installed C-clamp faces the front of the desk, making installation much simpler, especially in tight spaces (optional grommet fastener included).

Features

- Unique design allows easy monitor adjustment, even in tight spaces.

- Easy-grip adjustment knob allows you to quickly and easily adjust height (239-470mm), tilt and swivel (±10°), rotate to landscape or portrait orientation (+/- 180°) and lock your monitors in place. Quick-release VESA® mounts simplify monitor installation.

- The SmartFit® System makes finding the right height for maximum comfort as easy as 1-2-3. Simply match your hand size to the colour on the provided chart, set the height to your colour, and you're done.

- Easy, non-permanent installation includes necessary tools and a pre-installed C-clamp that faces the front of the desk, making installation much simpler, especially in tight spaces (optional grommet fastener included). C-clamp fits desks up to 85mm (3.3") thick. Grommet mount fits desks up to 40mm (1.5") thick. Compatible with sit/stand desks.

- A single base holds two monitors, freeing up valuable desk space.

- Perfect for home or office use, the sturdy, space-saving design complements a modern aesthetic while keeping your monitor steady and stable (supports monitors up to 27" and up to 8kg/17.6lbs.). Cable management system eliminates cable clutter for a cleaner desktop.
