

The best gets better with our 5th generation Explorer Work-In case. With updates based on educator feedback, this always-on case features a redesigned bottom half that delivers easy, unimpeded access to ports. The molded interior keeps devices cool with heat-dissipating air flow channels, while the grippy exterior surface guards against slippage while typing. Soft-touch bezel clips and elastic bands keep Chromebooks/laptops secure and the soft interior prevents scratches. Dual carry handles provide a secure grip and the included, removable shoulder strap adds hands-free carry options. The updated front pocket includes interior compartments and zips securely closed to keep accessories organized and close at hand. Available in 11-inch and 14-inch sizes to accommodate a wide range of Chromebooks and laptops.

Explorer 5 Work-In Case

Always-on protection plus a handy pocket

Explorer 5 Work-In Case

Always-on protection plus a handy pocket
