

## Assembly instructions for Support Stool

### Parts list for Support Stool

1. Metal frame with seat – 1 set.

Before assembly please make sure if the box contains all necessary parts.

### Assembly steps:

1. Put the frame on the flat surface.
2. In the upper part, unscrew the knob and pull out the seat clamping bar.

### **ATTENTION!**

The seat is assembled backwards for transport purposes

3. Turn over the seat part and assemble the bar in the frame.
4. Set the seat at desired height and screw the knob.
5. Spread the lower part of the frame to its maximum position.
