TI-Nspire™ CX Docking Station

The TI-Nspire™ CX Docking Station saves vital lesson preparation time for the teacher, providing efficient document transfer, handheld battery recharging and updating. With it, teachers can:

- » Store and charge up to 10 TI-Nspire™ CX and TI-Nspire™ CX CAS handhelds in each docking station
- » Share documents with multiple handhelds simultaneously using TI-Nspire™ CX Teacher Software
- » Update the operating system on multiple handhelds simultaneously
- » Link up to four docking stations together, and handle up to 40 handhelds
- » Monitor handheld battery status and document transfer status

TI-Nspire™ CX Docking Station is only compatible with TI-Nspire™ CX and TI-Nspire™ CX CAS handhelds.

TI-84 Plus CE-T Charging Station

The TI-84 Plus CE-T Charging Station is designed exclusively for the TI-84 Plus CE-T graphics calculator.

- » Recharges up to 10 TI-84 Plus CE-T graphics calculators at a time
- » Stores your graphics calculators as they recharge
- » Available separately as a stand-alone configuration
- » The TI-84 Plus CE-T Charging Station is not compatible with TI-84 Plus, TI-84 Plus Silver Edition or TI-84 Plus C Silver Edition graphics calculators

TI Wall Charger

This power adapter enables handhelds to be charged from a power socket. To charge the battery, the handheld just needs to be connected to the adapter which is plugged in the wall socket (no need to remove the battery from the handheld).

Note: The TI Wall Charger can charge the battery of TI-Nspire™ handheld with Touchpad (when using rechargeable battery), TI-Nspire™ CAS handheld with Touchpad (when using rechargeable battery), TI-Nspire™ CX handheld, TI-Nspire™ CX CAS handheld, TI-84 Plus C Silver Edition and TI-84 Plus CE-T.

- » AC/DC Power Adapter; Model: AC9910U-EU; Input: 100~240V 50-60Hz 0 200mA;
Output: 5V dc – 1000mA

Graphics Calculator Accessories

TI Rechargeable Battery with wire (N2BT/KT/A)

Lithium-ion battery that eliminates the routine replacement of ordinary alkaline AAA batteries. Under normal conditions and with proper maintenance, the rechargeable battery can be expected to last up to three years.

The TI Rechargeable Battery can be recharged using:

- » TI Power Adapter
- » USB cable
- » TI-84 Plus C Charging Station, TI-Nspire™ CX or TI-Nspire™ Docking Station

(Applies to all TI-84 Plus C Silver Edition graphics calculators; all TI-Nspire™ with Touchpad handhelds; TI-Nspire™ CAS with Touchpad handhelds; all TI-Nspire™ CX and TI-Nspire™ CX CAS handhelds with two-tone back case.)

TI Rechargeable Battery without wire (N2BT/KT/B)

Lithium-ion battery that eliminates the routine replacement of ordinary alkaline AAA batteries. Under normal conditions and with proper maintenance, the rechargeable battery can be expected to last up to three years.

The TI Rechargeable Battery can be recharged using:

- » TI Power Adapter
- » USB cable
- » TI-Nspire™ CX Docking Station

(Applies to all TI-Nspire™ CX handhelds, TI-Nspire™ CX CAS handhelds with one-color back case and TI-84 Plus CE-T graphics calculators.)
