### KEY LOCKING

Easy to use high quality key lock with up to 2000 combination differs.

- 2 keys supplied with each key lock
- Mastered Key Lock available FOC at point of order
- Master Key available (sold separately)

### COMBINATION LOCKING

Designed with simplicity in mind, the KLIO offers mechanical keyless access. Private function only.

- Locked and unlocked indicators
- 4-wheel code combination
- Up to 10,000 unique combinations
- Black powder coated finish
- Private function only
- Easy grip outer casing
- Code retrieval function
- Master key available (sold separately)

### ELECTRONIC LOCKING

Designed with simplicity and functionality in mind, the Nano90 offers sophisticated electronic keyless access with private and public functionality.

- 12 button keypad
- Low Battery Warning and Battery Override
- Easy programming of all features
- Standard setting of Master+ User code
- Private / Public Function available
- Up to 100,000 operations from 1 x coin cell battery
- Four code levels available -Master, Sub Master User and Technician

#### Private Function

This function is used where the same code will be repeatedly used, e.g. an employee with their own locker in the workplace. Changing or resetting the code can be completed easily whilst the lock is still on the door, or if the code has been forgotten it can be retrieved using the master key (sold separately - combination only).

#### Public Function

In this setting the lock operates with a single User Code. The user enters a personal four-digit code. This locks the lock. The same code is entered once only to open the lock before automatically being erased and ready for the next user. This function is used for short-term, multiple occupancy applications, e.g. a locker in a Gym/Sports club or work place that is used by multiple people.
