FlexDesk 630N

document holder and writing slope

Work Smart - Feel Good

FlexDesk 630N flexible document holder lets the user change back and forth between writing and computer work easily and efficiently.

An in-line workstation limits neck and shoulder strain.

To prevent neck rotation, documents have to be placed between the keyboard and display screen. A sloping work surface reduces flexion of the neck and thus increases work comfort.

Multifunctional: document holder and writing slope, working simultaneously with documents and computer

Quality: white work surface, easy gliding rails, cabin for pencils, rigid (5 mm thickness acrylic)

Creates an in-line workstation: document holder is placed between screen and keyboard, that prevents undue head and neck movements

Height adjustable (115 - 175 mm): good alignment to the screen

Handy: allows full-size keyboards to be stored, space under front side: 55 mm

 Width
 515 mm

 Height
 110 mm

 Depth
 380 mm

 Weight
 2.2 kg
