Automatic stapling.
Bring added value to your workplace

Brother SF-4000 Staple Finisher

Transform your laser printer to do more than print documents

Add a staple finisher to your printer and immediately improve your productivity by automating documents being stapled. Ideal for businesses with a high-print volume and require a space-saving, professional finishing option.

The compact unit is easily attached into place, delivering the performance that your business needs. The staple finisher comes with staples, so you can get started straight away. Your stapled documents are neatly offset and stacked in a tray, making them easy to find and organise.

Key features

- **Easily added to your Brother printer**
- **Cost effective document finishing**
- **Removes manual stapling of documents**
- **Automatically offset stapled documents**
