Why should you buy a paper shredder?	18

Data shredded is data protected

GDPR replaced local data protection laws in May 2018.

*Shredding supports GDPR compliance

The General Data Protection Regulation – An overview

The GDPR is part of the European Commission's plan to modernise and harmonise data protection rules. While the GDPR's main objective is to strengthen online privacy rights, it still addresses paper-based data privacy. It focuses on tackling the ever-increasing challenges towards data protection and privacy, exposure to security breaches, hacking and other unlawful processing.

How to choose a shredder

Where will the shredder be located and how many people will use it?

Large Office
20+ users

Office
Up to 20 users

Personal Executive/Home Office
Up to 2 users

What security level should you have?

A higher P rating increases the security level and bin capacity due to smaller shred size.

Super Fine Micro Cut P-7 Top Secret Security

Cuts 1 A4 sheet into
approx. 12,500 pieces

Super Micro Cut P-6 Ultra High Security

Cuts 1 A4 sheet into
approx. 6000 pieces

Micro Cut P-5 High Security

Cuts 1 A4 sheet into
approx. 2000 pieces

P-7 to P-5 For legal, financial, government departments and other high security top secret documents.

Cross Cut P-4 Confidential Security

Cuts 1 A4 sheet into
approx. 400 pieces

Cross Cut P-3 General Security

Cuts 1 A4 sheet into
approx. 200 pieces

Strip Cut P-2 Basic Security

Cuts 1 A4 sheet into
approx. 40 pieces

P-4 and P-3 are ideal for home use or any corporate environment requiring confidential security.

P-2 offers basic security for documents without any sensitive information.

Additional features

Allows stacks of paper to be shredded in one go, rather than being fed manually

Shreds up to a certain number of sheets at one time

Prevents paper jams, automatically stops and reverses when too much paper is inserted.

Low noise motor for minimum disturbance in the office or at home

Select paper feed capacity and bin size.

A higher sheet capacity means less time spent shredding

A larger bin allows more shredding before emptying the bin

*Super Micro Cut P-6 - Ultra High Security

P-6+ is the ultimate security option as the particle size is smaller than a standard P-6 shredder, so you shred 1 A4 sheet into approx 12,000 pcs

**Micro Cut P-5 - High Security

P-5+ is the ultimate security option as the particle size is smaller than a standard P-5 shredder, so you shred 1 A4 sheet into approx 6,000 pcs

Auto-Feed Shredding

Save 98% of your time

Stack, shut, shred

GDPR means we should be shredding more, the good news is this doesn't need to add to your daily workload. With the Rexel Auto + shredding takes 98% less time than a traditional manual feed machine*, you simply load your stack of documents into a secure PIN lockable tray shut the lid and you're done!

Auto+ Micro Cut Shredders

*Shredding supports GDPR compliance

Shredding will support GDPR compliance

2104574	Rexel Momentum X312-SL Slimline
2104573	Rexel Momentum X410-SL Slimline
2101948	Oil Sheets (12 Pack)

Why should you buy a paper shredder?

Whether you want to dispose of personal documents at home or client information, ensuring confidentiality is one of the primary motivations for buying a shredder. Shredders protect against identity theft and other fraudulent activity that can be carried out if sensitive data gets into the wrong hands.

Shredding documents can:

Protect your personal and business confidential data

- Protect the data of your customers and clients
- Help you avoid fines and legal action due to non-compliance with GDPR legislation
- Help you evade a data breach which could result in bad PR and reputation damage

Questions to ask before buying a paper shredder

What can you shred?

Whilst many assume that shredders only shred paper, many models can take on stapled and paperclipped documents, as well as CDs & credit cards.

What level of security do I need from a shredder?

Shredders are categorised by their security level which is shown as a P-rating; this refers to the number of pieces a document is shredded into. The higher the P-rating the more pieces a document is shredded into and the higher the level of security it provides. – See table on page 4

Should I purchase an auto feed or a manual feed paper shredder?

Auto feed shredders

Allow stacks of paper to be shredded in one go, rather than having to be fed in individually and are able to take documents with paper clips and shredders. We call this 'hands free' shredding, meaning you can load a stack of paper and walk away.

Manual feed shredders

Require human intervention to feed documents into the machines, however they can still shred a high volume of sheets in one go. Manual feed shredders also use the latest anti-jam technology to ensure seamless uninterrupted shredding when coupled with long run times.

What jam free technology do I need?

Feature	This means...
Anti - Jam	Automatically stops and reverses when too much paper is inserted.
Intelligent Jam Prevention	Continuously checks and indicates if too much paper is being fed into the shredder
Auto reverse	Responds automatically to a jam in the auto feed chamber

Where will my shredder be located?

Not all shredders look the same! Shredders no longer need to be plain black boxes, they are available in different, size, colours, and designs. Today's modern office shredders are available in a variety of styles such as slim line versions as well as high gloss white and black options. In addition to the design choices best suited to the aesthetics of your office a number now feature intuitive touch controls which means they are even easier to use.

How big does the shredder bin need to be?

Pick a shredder bin size based upon sheets stored in the bin rather than bin size alone. Note that the higher the security level means a smaller cut size and increased bin capacity.

How easy is it to maintain a paper shredder?

An easy way to prolong the life of your shredder is to oil your shredder. Always check to see whether your shredder requires oil sheets or liquid oil for maintenance. We have both shredder oil and shredder oil Sheets available in different sizes to ensure you keep your paper shredder in the best condition.
