GBC Laminating Consumables

Document™ Pouches

The daily solution to protect, preserve and enhance valuable presentation pages, reference lists, product sheets, notices etc.

HighSpeed™ Pouches

Suitable for use with any A3 size laminator, A4 HighSpeed laminating pouches feed in along the long edge for fast accurate loading and up to 30% quicker laminating time. Helpful alignment guides, micron width icons and directional load arrows ensure perfect loading.

Matt™ Pouches

Writable and easy to clean. The non-reflective finish is ideal in bright light conditions or to avoid unsightly finger marks.

Binding doesn't get any simpler!

The Quickstep process was designed to simplify the binding process and remove the frustrations highlighted by consumer feedback. By using the Quickstep colour coding on both the machines and ProCombs you are guided through each step clearly, creating error-free fast binding.

Choose your comb size depending on how many pages you need to bind

Align* the arrow on the comb to the machine, never make an error loading a comb again!

Bind by opening the comb to the optimum point for quick loading and finishing of your document

*Only available on GBC ProCombs

GBC CombBind® Moderate to heavy duty use

GBC CombBind® C366E / C366

GBC Select the right binding style

Binding a document says something about you - whether it's that all important sales proposal for a customer, a securely bound legal document, or a regularly used training document. Select from the GBC range of binding styles and covers to make sure it represents you. You only get one chance to make a first impression!

Which binding style?

CombBind®

The classic way to bind.

- 21 hole punch pattern allows you to select spines from unique GBC ProCombs, standard combs or unique Zip comb finish
- ProCombs are designed to use with QuickStep enabled binders - for optimal efficiency in binding
- Zipcombs - easily open and replace pages. Provides a professional, modern finish
- All comb styles are great for photocopying and page turning

WireBind

The professional way to bind.

- Durable, robust metal wire spines with either 34 or 21 loops (designed for use on Multifunctional binders)
- Providing a secure binding wire with 360 degree turning capability - perfect if photocopying is required
- Ideal for documents which require a secure, non-editable closure

ClickBind™

The simple and editable way to bind.

- Click provides a modern finish to any document with the added benefit of easy page addition or removal when required
- Maximum impression with minimal effort
- Click provides 360 degree turning and is ideal for photocopying

ThermaBind™

The "Published Look" way to bind.

- Pages are held in place with adhesive inside the spine of the covers
- Front and back covers are supplied as one item - unique for ThermaBind
- Flat stack multiple copies and ideal for mailing

StripBind™

The most secure way to bind - great for legal or sensitive documents.

- Strip bind is tamper proof with a highly professional finish
- The preferred binding style for legal and financial areas
- Flat stack multiple copies and ideal for mailing

GBC StripBind™ The secure way to bind

GBC SureBind

GBC SureBind System 1

The SureBind System 1 Strip Binder is ideal for businesses that require documents to be securely bound. It combines a manual punch that takes up to 22 80gsm sheets with a powered binder that handles 200 sheets. It has a full width handle for smooth, effortless punching. Secure binding is achieved by welding 2 strips together to create a permanent spine.

- Paper size guide ensures perfect paper alignment
- Binds A4 and A5 sized documents

Product	System 1	System 2
Product Code	7705260	9707051
Bind Capacity	250	500

System 1

GBC SureBind System 2

The SureBind System 2 Strip Binder is ideal for large offices with frequent requirements for secure binding. It is fully electric with a punch taking up to 22 80gsm sheets, a binder with the flexibility to bind up to 500 sheet documents and even a jam prevention feature. Secure binding is achieved by welding 2 strips together to create a permanent spine.

- Storage Compartment: Keeps your supplies close to hand
- Paper size guide ensures perfect paper alignment
- Binds A4 and A5 sized documents

GBC Clear presentation covers

Choose the front and back cover to suit your style

GBC Clear Front Cover

Perfect for showing off your document title page. Available in:

- PVC clear
- Polypropylene clear

- PVC covers are tear resistant and available in clear and opaque in various thicknesses
- Polypropylene covers are tougher, stylish, modern and are made off easily recycled material
- Cardboard covers come in a range of finishes and textures to give a traditional appeal to a document presentation where touch, feel and colour are important

The above opaque covers can also be used as front covers if you don't want your title page to be immediately on view.

GBC Back Cover

Opaque or solid covers are available in a variety of different colours and textures.

- Cardboard
- PVC opaque
- Polypropylene opaque

HiClear™

Transparent covers ideal for your title page. Made from durable PVC – available in A4, A3 and A5 in various gauges. Available in clear or super clear finish.

PolyClearView™

Tough and modern PolyClearView is a robust semi-clear solution to protect title pages. The textured finish reduces glare. Made from tough, recyclable polypropylene. Size A4.

ColourClear™

Perfect for adding some colour to the front of a document whilst still being able to see the title page. PVC with medium weight. Size A4, 100 pcs.

GBC Opaque presentation covers

LeatherGrain™

Leather 'Look' Finish range that offers the look and feel of real leather. At 250gsm these covers provide exceptional durability and quality.

HiGloss™

Coated card for a bright, smooth high gloss finish.

LinenWeave™

The professional 'feel' with a classic, natural fibre look - and a professional colour palette to match. LinenWeave is the perfect companion to any report.

Recycled Covers

GBC Eco-friendly recycled covers are made from 100% post consumer waste. They are available in a choice of natural earth tones.

PolyOpaque™

Made from high quality polypropylene. Spill proof, strong, durable and recyclable cover with a slight 'sand' grain on one side and completely smooth on the reverse.
